Hi Emmanuelle-

Ok, thanks for confirming. I was suggesting that we allow Hopi's application to be submitted via email since they were experiencing so many issues with Grants.gov. I'm not privy to any other issues, or whether Bessie/Vernese would object but it seems that would be reasonable to do given the trouble Hopi has had with the Grants.gov system. I left a message for Alba since she's our Grants.gov coordinator because I'd like to know what's needed in order to do that as an exception to the policy. I'll circle back with you when I hear from Alba.

Yes I am backing her up on the Hopi grant. Let me know if there is anything you need on my end.

Thanks

Emmanuelle

Emmanuelle, I received an out of office message for Bessie- would you happen to be backing up Bessie in her absence?

Can we accept the submittal via email, as an exception to GPI-14-01?

Hello Lionel,

Thank you for your numerous attempts to submit the application in Grants.gov. EPA is unable to process the grant for additional funding due to non-submittal of the application in Grants.gov at this time.

The Project Officer, Bessie Lee will follow-up with you when she returns to the office regarding the additional funding.

*Vernese Gholson* ☺

Vernese,

Stayed on the phone with service center over an hour we couldn't figure out why it wouldn't upload.

Lionel

Vernese,

I could not get it to go through on grants.gov I also tried to do it from another location, not sure if there is something wrong with the site itself. Just doesn't want to load.

**Subject:** RE: Grant Application\_Hopi\_Grant Description

Here's the description Bessie provided...

Drinking Water Tribal Set-Aside (DWTSA) funds are being awarded to the Hopi Tribe to construct additional improvements to the public water system serving the Village of Shungopavi. The eight (8) specific activities to be funded with this agreement include improvements to the elevated storage tank building site, well improvements, and electrical work. The additional funds will be used to provide temporary water and storage activities related to the recoating of the elevated storage tank. The remaining money after that temporary water/storage activity would be used to help construct a transmission main to connect the Village to the Hopi Arsenic Mitigation Project (HAMP).
